SNAKE GAME   React JS, CSS

The player controls a long, thin creature, resembling a snake, which roams around on a bordered plane, picking up food (or some other item), trying to avoid hitting its own tail or the edges of the playing area. Each time the snake eats a piece of food, its tail grows longer, making the game increasingly difficult.

PORTFOLIO   React JS, CSS

A portfolio is a compilation of academic and professional materials that exemplifies owner beliefs, skills, qualifications, education, training, and experiences. It provides insight into owner's personality and work ethic.
